ROAD SAFETY AS A KEY DRIVER FOR SUSTAINABLE DEVELOPMENT

INSIGHTS FROM SDG CHAMPIONS

#CLAIMINGOURSPACE

ROAD SAFETY IS AT THE HEART OF THE SUSTAINABLE DEVELOPMENT AGENDA

#CLAIMINGOURSPACE

SDG4 Quality Education:

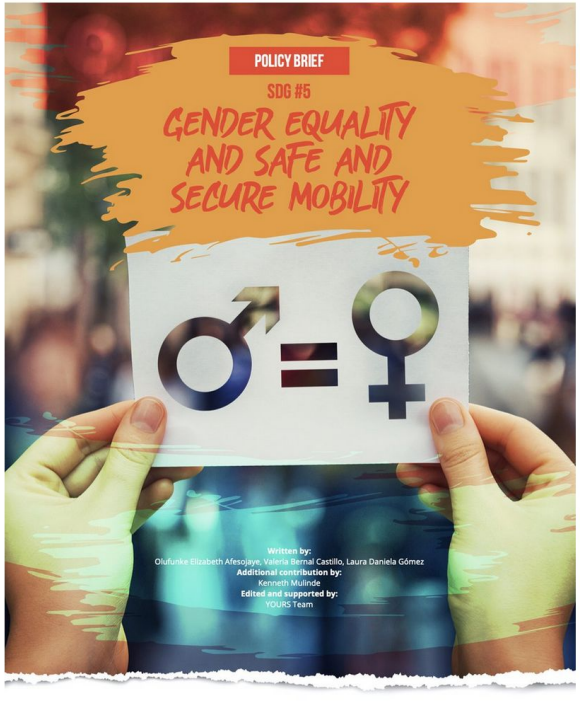
- Safe and sustainable mobility is crucial to create inclusive learning spaces.

- We call for reduced speeds , safe infrastructure around schools, and measures like "school street" to protect children and youth on their way to educational institutions.

#CLAIMINGOURSPACE

SDG5 Gender Equality:

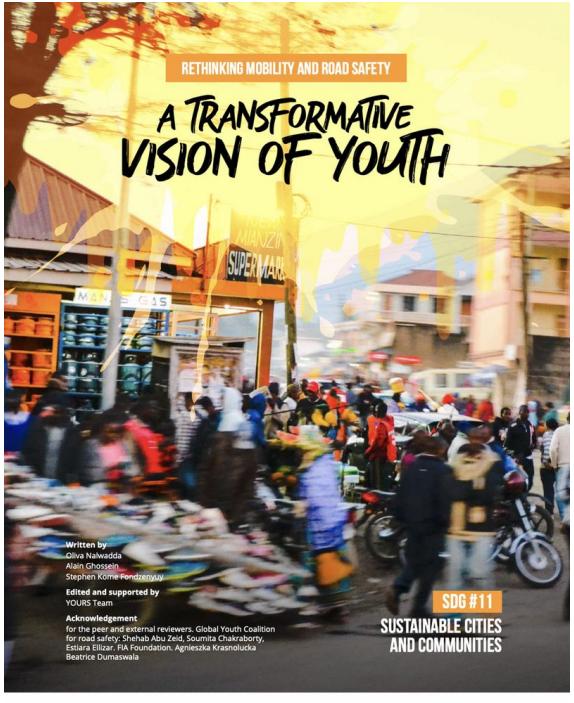
In 46 countries surveyed, **only 17%** of jobs in the transport sector are held by women. The lack of road safety and safe mobility is a gender equality issue that requires transformative and **gender-responsive planning** to protect and ensure equitable accessibility for all genders.



#CLAIMINGOURSPACE

SDG11 Sustainable Cities and Communities:

There is no sustainable transport and sustainable urban city without road safety, and there is no road safety without sustainable transport and a sustainable urban city.



#CLAIMINGOURSPACE

Initiated by:

SDG13 Climate Action:

We urge governments to save lives and create a sustainable urban mobility system that accelerates decarbonization by supporting Eco-mobility and Micro mobility.
